Dear ██████████

**Re: OIA Request for Information**

CFFC has not conducted any research on *What information does the government have on the impact of house and land price inflation on Maori, Pasifika, and those aged 65 years plus specifically.*

However, we can point you in the direction of some research that we are aware of that may be of interest: (all available on the Review of Retirement Income Policies page of our website <https://www.cffc.org.nz/reviews-and-reports/2019-review-of-retirement-income-policies/research-and-reports/>)

- Retirement Policy and Research Centre (RPRC) report of fiscal sustainability
- Massey Health and Ageing Research Team (HART) studies
- Ipsos report on focus groups and vulnerability

Plus, the soon to be released Centre for Research, Evaluation and Social Assessment (CRESA) report <https://cresa.co.nz/>

I trust that this will be helpful

Yours sincerely

Peter Cordtz  
Retirement Commissioner
